

# OUR PARTNERS TOURS & TRANSPORT

With a combination of highly-frequented tourist areas and some hidden treasures, Paris is an accessible city, appreciated for its charm and pleasurable way of life. Easy to get around, the city has a user-friendly public transport infrastructure covering the whole of the capital, with an underground and bus network in constant development. A more unusual way to discover the city in style is to hire a chauffeured limousine.

In good weather, bicycle paths are at the disposal of cycling enthusiasts or rollerbladers. Finally, the River Seine constitutes an original route through Paris ... and is certainly an excellent way to enjoy delightful views from the very heart of the city.
